

Build a Mammal

The mammal has 10 parts which are associated with numbers on a die:
6 = Body 5= Head 4=Tail 3=Legs (4) 2= Eyes (2) 1= Hair
Each part must be thrown separately,

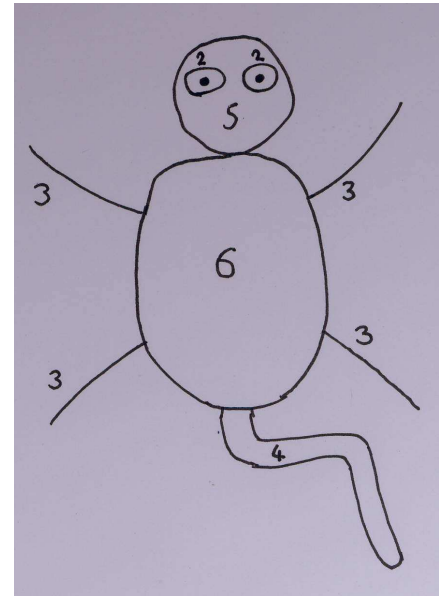

You must throw a 6 (body) to start.

You must have a head (5) before adding the eyes.

Once you have a full mammal, you must throw a 1 (hair) to finish

The first to complete their mammal , with hair, shouts MAMMAL,
everyone else then stops.

Score 1 point for every body part drawn at the end of that game, so a
complete mammal, with hair, scores 10. You could play more than one
game and the winner has the highest overall score
